Ebenezer WSCS Names Mrs. Jones To Fill Vacancy

The October meeting of the Ebenezer WSCS was held at the home of Mrs. John Hadden with Mrs. W. G. Hadden assisting. The meeting was called to order by the vice president, Mrs. Herman Disrud. She led the group in responsive reading of 121st Psalm and the song, "Love Divine."

The spiritual life chairman, Mrs. Annetta Scott, gave an interesting talk. Mrs. Ira Story conducted the devotion period on the topic, "Day

by Day. The lesson was presented by Mrs. Joseph Turner, "God Promises People Shall Know He is Their God." Several members assisted Mrs. Turner. They were Mrs. Paul Jones, Mrs. Frank Wells, Mrs. William Jones and Mrs. Charles Reid. The lesson closed with prayer by the leader. Roll call was answered by 21 members

Performance that puts your safety first!

New models—all with bold new Motoramic Styling. More models—including two new 4-door hardtops and two new 9-passenger station wagons. New excitement under the hood—up to 205 horsepower and 9.25 to 1 compression ratio. This—remember—is the car that broke the Pikes Peak record in a history-making, preproduction trial. Come on in, look it over and try it out!

They're sitting in our showroom right now champing at the bit. For these '56 Chevrolets were born with an urge to go places! But look 'em over first.

Look at that bigger, wider, more massive grille. Follow that lower, speedline of chrome back to those sassy, high-set taillights (the one on the left swings down to uncover the gas cap!).

V8 or 6 - 19 Models in 3 Series

Any kind of model anyone could want! Your choice of the new "Blue-Flame" 6 with 140 h.p. and new higher compression or Chevrolet's record-breaking V8 power ranging up to a new high of 205 h.p. and 9.25 to 1 compression ratio! Automatic, comfort and safety features? If Chevrolet doesn't offer them, it's only because they haven't been invented vet

We can hardly wait to have you see and drive this '56 Chevrolet. Come in real soon, won't you?

Duncan Hines' Newest...and most versatile! Sunshine SPONGE Cake Mix

High as an angel food...with a moistness that lasts...and the mixing couldn't be easier!

DUNCAN HINES America's Foremost Authorit on Good Eating

Duncan Hines says: "Of all the cakes I've put into mixes, I'm especially proud of this -because I know the cake you make with it will be everything a true sponge cake should be: high, light, tender, moist, with a sunshine color and fresh, delicate flavor.

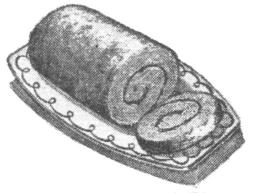

"The mix itself is so highly perfected you just can't have anything less than a huge success. And the two fresh eggs I ask you to add make all the difference! They make the cake rise high in the pan, make it tender and moist, and keep it moist for days.

"Bake it any way you please—in a tube or loaf pan, in layers, in a sheet. It's so easy to handle! You can roll it, split the layers with a nice clean cut . . . and of course fill it, frost it, serve it with a simple custard, fruit, ice cream or your richest sauce.

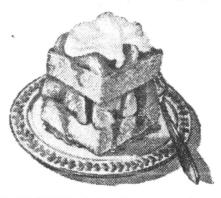

"You can have fun with this mix, because everyone knows a fine sponge cake is the beginning of dozens of wonderful desserts. Vary it as many ways as your imagination can dream up-it will make the most talked-about desserts you ever brought to your table."

MIRACULOUS MAKE-OVER - Joseph F. Sherman is a strip mine operator of New Bethlehem, Pa. His motto is "Take care of the land and it will take care of you." He is greatly interested in what can be done to reclaim worthless farm land and land scarred by strip mining. He knew of a beautiful valley near his home. It consisted of five farms, some so valueless they had been abandoned. Former pasture land was untended brush and weeds. Five years ago he bought the first farm of 160 acres and moved in some of his giant earth-moving equipment. He cleared the field, bulldozed the tree stumps and spread tons of lime and fertilizer. He now has 1000 acres on which he raises a herd of 200 purebred Aberdeen-Angus cattle for the beef market. The rich, pastoral scene he looks at above, through the picture window of the rambling ranch house he built. is the result of Sherman's unprecedented one-man reclamation project. MEN-VIEW WITH ALARM!-Band together, men, or you'll fall victims to these latest creations of California's men's clothing designers. They were recently unveiled at a show in Palm Springs. The one at left is a sport shirt that focuses your attention on the neckline—if you aren't blinded first. Its design is taken from an optical illusion pattern used by graphic arts designers and physicists. The frilly number at right by Val Desco is called a "bosom shirt." In cotton and silk it has polka-dot ruffles in crimson or blue. One model repeats the polka dots on the cuff. Shirt is

supposed to be worn with a tuxedo. A maroon velvet tux, that is.

TAKES SQUEEZE FROM PARKING - Getting out of tight parking spots is easy if you own a gadget like the one being demonstrated here. The device, top photo, is sold in London, England, and is a steel platform with casters at one end and in the middle. Two are used, one under each rear wheel, (center.) The car is moved forward onto the platforms, and it is then given a sideways shove from the trunk, lower photo. It admittedly works easier with those small British cars than it would with heavy American autos.

A whole year of electric shaving costs less than a penny!

Almost unbelievable, but true! Like so many electric appliances, the shaver costs little to operate. Based on an average time of four minutes per electric shave (many people consider three minutes as average) you can shave 365 times for less than a penny!

That's the way it is with electricity. It is being used more ways every day, making troublesome jobs faster and easier.

JEWELRY "SUPERMARKET" IS GEM OF AN IDEA-Eric Weinberg, a wholesale jeweler of Cleveland, Ohio, took a tip from the grocery chain supermarkets and is cashing in on it. He turned his store into a self-service "market" with walls lined with small bins, each stocking a different jewelry item. Just as housewives do, his customers (retail jewelers) trundle carts around, make their selections and have their bills made up at a check-out counter. Clerks behind the walls keep the bins replenished and also fill orders from Weinberg's traveling salesmen. Large photo shows customers making the rounds. Inset shows Mrs. Kay Adkins, of Newton Falls, Ohio, having her purchases checked by Mrs. Weinberg.

When better automobiles are built Buick will build them

TT COMES upon the heels of the most successful ■ Buick in history—and beats it on every score.

In shimmering steel and solid sinew, it's Buick for 1956-and there's never been anything like it for pure automobile.

You get a good hint of what we mean when you take in the sweep-ahead styling of it - from the air-splitting prow of its V-front grille to the robust rake of its canted rear profile.

You get an even better hint when you open the doors and see the dazzle there-in the decorator

fabrics and décors—in the jewel-like finish of the fittings-in the precisely shaped steering wheel and controls - in the rich new instrument panel with soft-padded top and glowing dials that detail your progress in changing colors.

But it's when you put this beauty to the city streets and the open highways that you learn the best of it.

Performance Without Parallel

A new advance in Variable Pitch Dynaflow* goes airplanes one better - steps up your getaway in normal driving without flooring the pedal to switch the pitch. But when you need that extra surge, it's there, instantly-and in extra abundance.

The might of big 322-cubic-inch V8 engines in every Series brings new record high power to all Buicks - ROADMASTER, SUPER, CENTURY, and the bedrock-priced Special. Yet this is such highcompression power, such dynamic driving power, such completely usable power at the rear wheels

-the whole rear end has been endowed with extra brawn and heft and solidity to handle it.

We could spread before you an acre of blueprints on the engineering gems that spark the spectacular performance and ride and handling and roadability of these great Buicks for 1956.

We could tell you about a new double-Y manifolding of the engine for more usable power. And about a brilliant new front-end geometry that adds a whole new "sense of direction" to the car's travel. And about massive new direct-action shock absorbers that move three times more oil to cushion your all-coil-spring ride that much more buoyantly.

But you can get the full and magnificent story right now, at our showroom, in a face-to-face meeting with the best Buicks yet - now on display, and setting a dazzling new pattern for 1956.

New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century-optional at modest extra cost on the Special
